

Afiscooter S4 Cabin

The Afiscooter S4 Cabin is an electric scooter with a superstructure for protection against wind and harsh weather. The scooter features an attractive, modern, design including large windows for clear vision and safe driving. The Cabin scooter comes equipped with heater, seat belt, crutch holder, two external and one internal mirrors. 2 X 80A batteries, medico CCC 410 24V/8 battery charger, windscreen wiper and washer.

The cabin offers an impressive driving range, an ergonomic design for a noticeably more comfortable ride, a programmable electronic controller, LCD control screen and LED headlights.

The four wheel suspension and steering systems provide a pleasurable car like driving experience for long distances.

Afikim Electric Vehicles

has been developing and manufacturing advanced, electrically-powered mobility scooters since 1978! Afiscooters' mobility scooters are designed with reliability and driver safety in mind first and foremost alongside beautiful, and thoughtful design. Afikim Electric Vehicles' worldwide distribution network offers year-round local technical support and meets European ISO 9001-2000, EN 12184 certification, as well as US safety standards with FDA approval.
